

January 2021

Hello Fellow Shooters!

I will be coordinating the IHMSA version of postal matches again in 2021. These monthly matches will commence in April and conclude with a match in July (***4 matches: April, May, June and July***). Of course, this schedule may be altered based upon interest level and other factors. Included in this post, you will find:

1. Guidelines for the matches that give shooters overall direction on how to compete in this event.
2. Score Report form to be used by shooters to report their results.

The matches are informal and do not count towards classification, nor qualification for the world championship. However, they do provide motivation to get out and shoot, an easy and low cost way to compete and, of course, more opportunities to interact with your fellow IHMSA shooters.

Please respond or email with any questions. I am beginning the communication process early to garner as much interest as possible and encourage participation. Last year, we had approximately 15-20 entries for each match. This year, I would like to see a multiple of that participation level.

Good Shooting,

Tim Downs
